

Possible Vaccination of Homebound Residents

The Borough's Health Department is in the initial process of developing a list of those who are homebound. **IF** the vaccine becomes available in sufficient quantities at the County or municipal level, we would like to be prepared and have this information available, as best we can to help serve the community.

The definition of 'homebound' that has been established by Medicare is the definition the Health Department will be applying, as follows:

- You need the help of another person or medical equipment such as crutches, a walker, or a wheelchair to leave your home, or your **doctor** believes that your health or illness could get worse if you leave your home **And**, it is difficult for you to leave your home and you typically **cannot** do so

If you or someone you know may qualify, please contact the Borough Clerk's office
